

The report of VSO Archie Hopkins was reviewed, which included information that Hopkins may be retiring. Discussion on a possible replacement and the location of the office was held. Motion by Kehn, seconded by White Hawk, to table further discussion of the office location and Hopkins' retirement. With no further discussion and all voting yes, the motion carried.

Highway Superintendent Lynx Bettelyoun discussed updates, reviewed an \$84.00, paid private road contract with the Shannon County Schools and sought permission to purchase culverts, which would be paid from the department budget. Motion by Kehn, seconded by White Hawk, to approve the purchase of culverts off the Beadle County bids and private road for the Shannon School. With no further discussion and all voting yes, the motion carried.

Susie Hayes, Director of Equalization, met with the Board to discuss exempt church properties. A request from Wounded Knee Community Development to be exempt on all their land parcels was discussed. Deputy State's Attorney Pat Ginsbach reported that he has contacted the Attorney General's office about the request and notification is needed that states the Tribal government recognizes WKCD, before the exempt status can be granted. Ginsbach will send a formal request to WKCD for the information. Motion by Kehn, seconded by White Hawk, to table the request until receipt of a resolution indicating the Wounded Knee Community Development is acting as part of the Tribe. With no further discussion and all voting yes, the motion carried.

Sheriff Jim Daggett presented his monthly report, noting that necessary equipment has been installed on the new patrol vehicle. Disposal of cattle carcasses resulting from a winter storm was discussed. State's Attorney Jim Sword advised that the county should take no action until notice from the Animal Industry Board.

Ginsbach suggested the Board consider setting a discretionary formula for new commercial construction at valuations of \$30,000.00 or more; he will bring a resolution draft to the next meeting and the Commission can then consider percentages for the formula.

Frank Maynard, Emergency Management, reported on the Pre-Disaster Mitigation plan and presented an update on damage incurred from the October 4, 2013 blizzard, noting that the Board should consider a disaster resolution. Maynard added that producers can report losses to Emergency Managers, who will in turn report the information to the Department of Agriculture and Industry Board.
