Oglala Lakota County Property - 2022.xls;

Hello again, Sue!

I have also been reviewing Oglala Lakota County property values and would like to discuss a few items.

I have attached the property worksheet from your Safety Benefits property.

When Oglala Lakota County's property valuation was conducted, Safety Benefits identified one property currently uncheduled:

- Highway Storage Unit in Batesland

This structure can be covered under the property coverage that the County has with the SDPAA. We have provided a quote for the highway storage unit. Please review this value as well as the property itself and let us know if you would like to add this to your property schedule. If not, we will simply exclude them from the property coverage.

For the balance of the property locations, we are now required to ensure that your property values listed on the statement of values are at least 100% of the values prepared by Safety Benefits to maintain replacement cost coverage. For those locations covered at actual cash value, 85% of the Safety Benefits value is required. Currently, Oglala Lakota County's properties are listed at replacement cost. We have provided quotes for updating these values to maintain the currently selected valuation. Please review this information and let me know if there are any questions.

If the County does not wish to update the values, we can also move these locations to stated value coverage.

Definitions/Application:

Blanket Limit: The most that would be paid for any one occurrence (example – hail or windstorm, building collapse etc.) regardless of the number of locations involved.

Replacement Cost Coverage (RCV) – this valuation will pay the lessor of the cost to repair damaged property or replace it with like kind and quality materials subject to the blanket limit associated with the County's statement of values. This amount is currently \$258,348.00.

Actual Cash Value Coverage (ACV) – this valuation will pay the lessor of the cost to repair damaged property, or the value of the property based on the age and condition of the property at the time of the loss. The most that would be paid in any one loss is the blanket limit associated with the County's Statement of Values.

Stated Value Coverage (SV) – this valuation will pay the lessor of the cost to repair damaged property, or the cost to replace damaged property with like kind and quality materials subject to the value associated with the specifically damaged property. For example: If the Shop Building was completely destroyed and covered at Stated Value, the most that would be paid would be the cost to repair the property or rebuild it with like kind and quality materials, but the payment would not currently exceed \$168,256 as that is the value associated with the location on the statement of values.

The additional contribution due would be \$141.72 to right size these two properties to 100% of replacement costs by Safety Benefits recommendations. If you would like to meet and discuss the potential changes and options in person, please let me know. If you have any questions regarding the quotes, options for updating values etc. please feel free to reach out via phone/email or text.

Otherwise, please let me know how the County would like to proceed by November 8th, 2022. If we don't hear from you, we will move replacement cost coverage properties to stated value and will exclude the one unscheduled property.

Thank you for your time in reviewing these documents. We appreciate all you do for your County!
